EXPERIENCE

- eBusiness Specialist** • [Royal Sundaram General Insurance Co. Ltd.](#) Nov 2024 – Present | Chennai
- Elicit and analyze business requirements for chatbot and corporate website initiatives, translating needs into BRDs, FRDs, user stories, process flows and acceptance criteria.
 - Collaborate with business, product, design, engineering and support teams through requirement definition, development, UAT and production deployment.
 - Coordinate UAT: test scenario validation, defect tracking, stakeholder feedback and business sign-off before production releases.
 - Analyze chatbot and website performance using SQL and Power BI; build dashboards and recurring reports for usage trends, drop-off points and key digital metrics.
 - Manage and prioritize Azure DevOps work items and production issues; conduct data-quality checks and root-cause analysis for continuous improvement.
- UI/UX Intern** • [ERE Business Solutions Pvt. Ltd.](#) Jul 2024 – Sep 2024 | Kerala
- Gathered functional requirements and translated stakeholder needs into user flows, wireframes and interactive prototypes for web and mobile applications.
 - Collaborated with cross-functional teams to validate designs against functional requirements and usability objectives.
- Data Analyst** • [Vestas Wind Technology India Pvt. Ltd.](#) Nov 2023 – Apr 2024 | Chennai
- Supported the Turbine Performance Reporting Centre project by preparing, validating and analyzing turbine performance data for global stakeholders.
 - Produced recurring performance reports, performed data-quality checks and collaborated with internal teams to investigate data issues.

PROJECTS

- ProjectFlow - Project Status Management** (Live project | Case study)
Full-stack project-status dashboard demonstrating structured project records, lifecycle tracking from requirements to live release, validation rules, user stories and acceptance criteria.
- Insurance Chatbot Platform**
Defined requirements, user flows, business rules and acceptance criteria; coordinated UAT and post-launch analysis to identify gaps and prioritize improvements.
- Corporate Website Optimization**
Gathered business and functional requirements for enhancements and analyzed stakeholder feedback and live-site observations to improve customer journeys and processes.
