

RAGHUL ANANDAN

BUSINESS ANALYST | DATA ANALYTICS & BI REPORTING

Chennai, India | +91 82209 96959 | Raghulanandan72@gmail.com | linkedin.com/in/raghul72 | raghulanandan.in

PROFESSIONAL SUMMARY

Business Analyst with SQL and Power BI experience analyzing digital product performance, building dashboards and recurring reports, and identifying usage trends, journey drop-offs and data-quality issues. Skilled in production issue triage, root-cause analysis and communicating findings across business, product, engineering and support teams.

CORE SKILLS

Data & BI: SQL, Power BI, Excel, KPI dashboards, recurring reporting, digital metrics, trend and drop-off analysis, data-quality checks

Business & Delivery: BRD/FRD, requirements, user stories, acceptance criteria, UAT, production issue triage, root-cause analysis, Azure DevOps, Jira, Confluence, stakeholder communication

EXPERIENCE

eBusiness Specialist | Royal Sundaram General Insurance Co. Ltd.

Nov 2024 - Present | Chennai

- Analyze chatbot and website performance using SQL and Power BI; build dashboards and recurring reports on usage trends, journey drop-offs and key digital metrics.
- Prioritize Azure DevOps work items and production issues; use data-quality checks and root-cause analysis to identify improvement opportunities.
- Translate needs into BRDs, FRDs, user stories, process flows and acceptance criteria; coordinate with business, product, design, engineering and support teams through UAT and release.

UI/UX Intern | ERE Business Solutions Pvt. Ltd.

Jul 2024 - Sep 2024 | Kerala

- Translated stakeholder requirements into user flows, wireframes and interactive prototypes; validated designs with cross-functional teams.

Data Analyst | Vestas Wind Technology India Pvt. Ltd.

Nov 2023 - Apr 2024 | Chennai

- Prepared, validated and analyzed turbine performance data for global stakeholders; delivered recurring reports and investigated data-quality issues with internal teams.

PROJECTS

RAKMA AI - AI-Powered Business Analyst Assistant | Work in Progress

Developing an AI-assisted platform for the BA lifecycle, beginning with a General Insurance digital-journey use case. Exploring requirement analysis, BRD/FRD support, acceptance criteria, UAT, change and project workflow concepts; current development uses Python, Git and GitHub.

ProjectFlow - Project Status Management | Live project

Full-stack project-status dashboard with structured records, lifecycle tracking from requirements to release, validation rules, user stories and acceptance criteria.

Insurance Chatbot Platform

Defined requirements, user flows, business rules and acceptance criteria; coordinated UAT and post-launch gap analysis.

Corporate Website Optimization

Gathered enhancement requirements and analyzed stakeholder feedback and live-site observations to improve customer journeys.
